

Does Your Unwanted Hair Make You Embarrassed

Sometimes we put many efforts to make our hair grow quickly and make them stylish. These efforts are done our head part, as it is necessary for a complete look. But when these occur in those places where we get embarrassed then we stop them occur and start putting efforts to remove these unwanted hairs from the face and other body parts like arms legs etc

Natural Remedies for unwanted Hair Removal

There are many hair removal creams and patches available in the market but these solutions work for short time, as you cannot stop these unwanted hairs by using these temporary solutions. If you really want to get rid of this embarrassing problem then there is only one solution and that is known as laser hair removal technique. This is a permanent Hair removal in chandigarh.

Laser hair removal in chandigarh

During this permanent laser hair removal treatment, the laser light passes through the skin and the heat is absorbed by the melanin occurred in the hair shaft of the skin. This absorption raises the temperature of the hair follicle and thermally destroys the cells which are responsible for re-growth of hair. We at Dr Bansal's Skin n laser centre, use IPL (Intense Pulse Light) and Diode (soprano) technologies for the permanent facial hair removal.

UNWANTED HAIR

The Soprano is a specialized technique to provide pain-free Laser hair removal treatment. It works heating the dermis to a temperature that effectively damages the hair follicle and prevents re-growth of the hair. This is a unique laser hair removal treatment in Chandigarh which has satisfied thousands of customers came with this embarrassing problem and got positive results. By this using this Soprano laser technique, your skin does not get any ill effects, this treatment does not injure the surrounding skin.

Our expert doctors and dermatologists treat your skin by giving special care, as you are diagnosed first so that the doctor could find the root and the cause, why this problem occurs. After finding the cause, we medicate our patients and make their skin able to tolerate the laser light. Here, as you will not get any ill effects during and after getting the laser therapy to get a permanent solution for unwanted hair on the skin. Each of our customers is satisfied and always recommends us to get best hair removal treatment in Chandigarh.
